

ECO frantumavetro

The glass is fragmented within 3 seconds!

It contains up to 80 crushed glass bottles

ECO is the ideal crusher for the disposal of bottles, cans, glasses and any other type of glass object.

80 bottles in the space of a box, the volume reduced by 90%, with ECO the collection, transport and disposal of glass are easy and cheap.

ECO is a versatile tool: thanks to its **low power consumption** and its **small size**, it can be easily used to improve the management of spaces and contain the costs of disposal.

ECO is comfortable and easy to use.

Designed for hotels, restaurants, pubs, clubs, bars, canteens, hospitals, clinics and naval supplies, its natural use is for domestic and residential purpose too.

Ideal for:

Hospitals
Rest houses
Medical offices
Clinics

Bars
Clubs
Pubs

Restaurants
Canteens
Pizzerias
Catering

Large retailers

Housing estate
Condos

Hotels

Small and medium enterprises

Public agencies
Libraries
Museums

Nurseries
Recreation facilities

Naval supplies

ECO frantumavetro

Thanks to its small size, ECO can be **easily positioned** alongside other appliances, inside a cabinet, near the area of recyclable waste and helps you in the collection.

CE

ECO is a CE marked product, it is entirely made of stainless steel and equipped with safety devices.
