

GHOST

Gets rid of unproductive expenses

Directly
compacts in
120 Liters bin

Ghost is the professional waste compactor projected for your business.

Plastic, nylon, dry waste, paper, cardboard, Ghost reduces the volume of waste and meanwhile **cuts costs** and taxes to pay.

Using Ghost you release resources which can be invested in a more productive way: working hours usually dedicated to space cleaning and waste collection and disposal, transport cost and, if you pay for every emptying, **you spend only 1/3.**

GHOST offers you many advantages:

sanitation costs reduction, transportation costs reduction, general expenses reduction, reduced number of emptying, better hygiene and management of the waste, reduction of costs related to the rate of urban hygiene.

Ideal for:

Hospitals
Rest houses
Medical offices
Clinics

WITH GHOST

HOW MUCH YOU CAN SAVE

66%

66%

66%

Ghost reduces up to 80% the volume of waste materials.

Thanks to its unique technology, GHOST allows you to reduce the number of bins used in the company, the number of emptying and the cost of disposal.

With GHOST
you can vary the
strength and frequency
of compaction.
