

COMPANYPROFILE

INDUSTRIAL

Our quality stands in the detail. Since 1963

Our reliability and efficiency have enabled us to be internationally recognized over the years.

Our prefabricated buildings are manufactured with the best materials by offering better living environment.

Our equipment provide a high level of productivity and durability.

Our 50 years of history.

“ In the fiftieth anniversary of the founding of the Company Sperotto Spa we do thank our customers, our employees and our suppliers who have contributed to the growth and success of our Company.

Growth that has developed over the years, never losing the Family company's values as well established in the area, but at the same time projected on international markets and focused on its customer oriented mission.

During these 50 years, Sperotto SpA has always been working to fulfill its mission: continuous research and product development aimed to customer service by achieving its projects and with the aim to be a reliable and valuable partner.

We assure you our personal and of our Company commitment in order to meet customer market demands and expectations with the same higher attention and professionalism.

Thank you.”

Mr. Renato Sperotto

Mr. Augusto Sperotto

Our history

50 years in the industrial buildings

In the **1963** Sperotto brothers establish OFFICINE MECCANICHE SPEROTTO Company in Sandrigo: the core business is about galvanised steel structures for poultry and industrial fields

1974

After 11 years of experience, a high qualified staff, modern machineries and new technologies, the Company start expanding its business even in France, Greece, Yugoslavia and Austria, Libya, Yemen and Algeria.

1975

The Company moves to a bigger place: it becomes the first Italian Company specialized in the turn-key poultry projects with its own production, **research and development department**. The **Industrial department** keep on growing as well as the projects in the Arab Countries.

1998

SPEROTTO opens its **branch in Brasil**: Tecnoesse represents the Company in the overseas territory.

2012

In 50 years SPEROTTO SPA has been projecting and manufacturing prefabricated industrial buildings, as well as products range for agricultural market, in order to satisfy every customers' need.

The expertise in the field of Prefabricated Steel Buildings industry deriving from five decades of activity in strict co-operation with the customers and the Engineering Companies, led to the present position of SPEROTTO company, able to supply the investors with a whole packet of proposals

Our Core Business

Our products range:

- * Workshop buildings
- * Industrial Plants
- * Airport Hangars
- * Bus Hangars
- * Buildings for electrical substations
- * Warehouse Buildings
- * Office Buildings
- * Commercial Buildings
- * Parking Shelters
- * Agricultural turn-key projects
- * Silos and stores for feed and cereals.
- * Industrial automatic feed mills.
- * Stores and cold stores.
- * Prefabricated steel buildings for food-producing (slaughterhouses, hatcheries, warehouses)
- * Pipe racks
- * Project management of turn-key plants

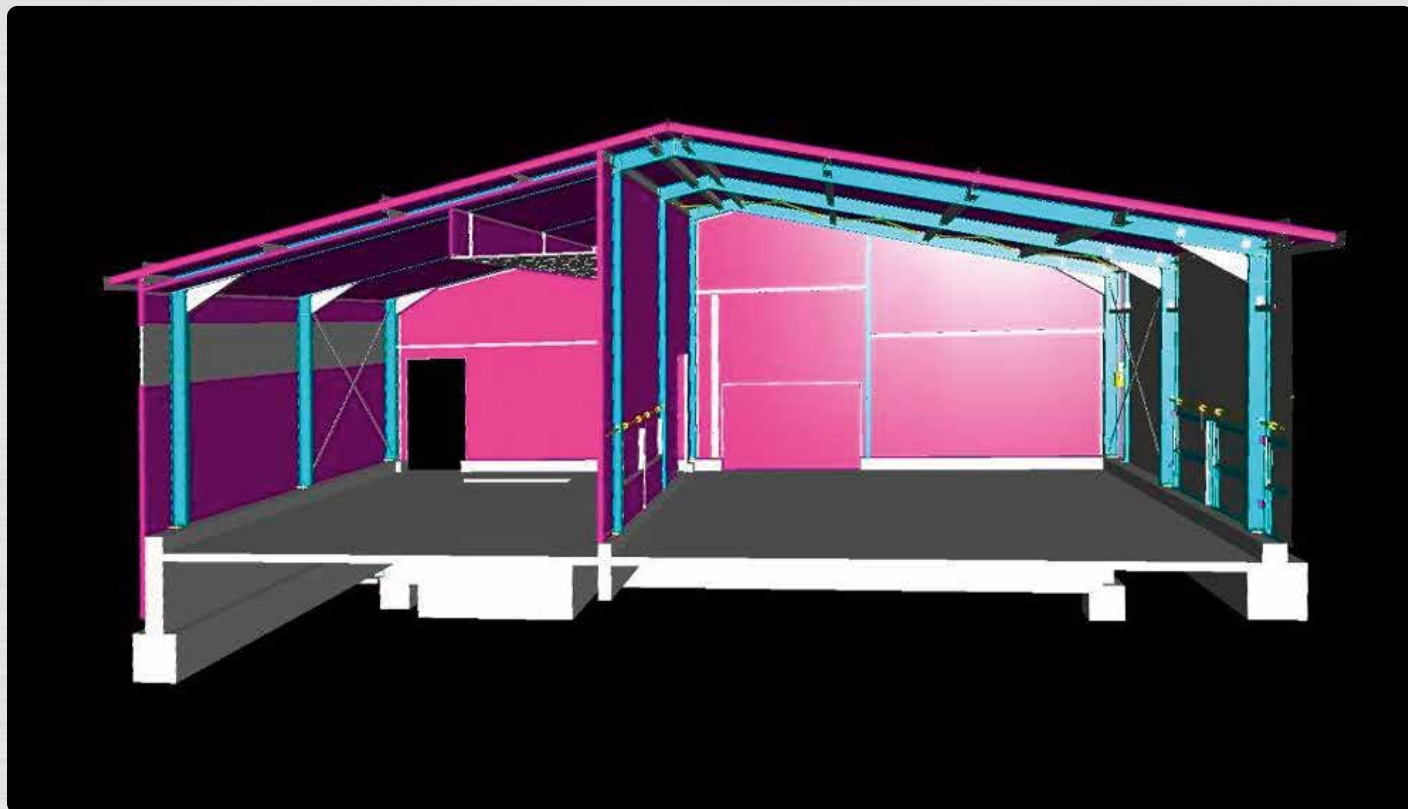

OUR STAFF

- **Technical department**
- **Production department**
- **Shipping department**
- **Customer service department**
- **Assembling crews**
- **Account department**
- **Sales department**

Key industrial data

PLANT & HEAD OFFICE	Sandrigo - Vicenza - ITALY
--------------------------------	----------------------------

SURFACE	35.000 m ²
----------------	-----------------------

COVERED AREA	24.000 m ²
---------------------	-----------------------

EMPLOYEES	75
------------------	----

SISTER COMPANY	Tecnoesse sa - BRASIL
-----------------------	-----------------------

Equipment and technological systems according to the rational and advanced industrial manufacturing of steel buildings.

Computerized WANG system for the complete management of the projects.

Complete design and calculation systems: TELAI SPAZIALI "SAP", BO.CAD 3D GRAPHIC, AutoCAD.

Production capacity: 300.000 m² of steel buildings per year
